Kingdom of Ash by Sarah J. Maas My standings £ o: Summary 5 of 5 stars GoodReads Years in the making, Sarah J. Maasa s # 1 New York Times bestselling Throne of Sà © glass Series draws to a à © peak, the conclusà £ unforgettable. journey Aelin Galathyniusà ¢ s slave to Kinga ¢ s killer to the queen of a once great kingdom reaches its final cut coraçà as it enters the £ £ erupçà the war in the world of her. . .Aelin risked everything to save his peopleâ ¢ but at a tremendous cost. Locked inside a coffin £ the iron by the Queen of the Fae, Aelin should be based on their willingness to fire while it lasts months of torture. Aware that give Maeve will condemn those who love prevents break, although his determinaçà the £ begins to unravel each passing Daya ¢ | With Aelin captured Aedion and Lysandra remain the última line of defense to protect the Terrasen destruiçà £ total. However, they soon realize that many theyâ ¢ already allies gathered to Erawanà ¢ s battle hordes can nA £ being enough to salvÃ; them. Spread across the continent and running out of time, Chaol, Manon, and Dorian sÅ £ o required to forge their prųprios ways to meet their fate. Hanging on balanħa Ä © esperanħa any of salvationÄ ¢ and better world. And other side, his companions inabalÄ¡vel beside him, Rowan caħa to find his wife and Queena captured before she estÅ¡ lost to him forever. As the ACCOUNT © m spoilers! PROCEED WITH CAUTION! This may be the A nica time I'll break my Politics NA £ o-SPOILERS and write this add comment. Ok, me in the £ I'll screw it up, but there were some parts of this monster 998 pages that I want to mention. Our book comeAs with my Rowan search Aelin with Elide, Lorcan and Gavriel atravA © s of the known world trying to figure out where Queen Bitch Maeve imprisoned her. Despair and many emotions thicken all pages as the fight becomes real and the danger that surrounded all Erilea A © devastating. At the same time, we will have three different configurations; Manon, Thirteen and Dorian look the other witches and the final Wyrdkey. Chaol witha Yreneà and of the family real Khaganate get Erilea and finally Aedion, Lyssandra, and Bane fight his way to keep alive Terrasen. The plots in £ let anything go smoothly. You can see the tensions among all, as Dorian struggles with his humanity and identity crisis, as Manon has to reconcile with the fact that it à © half Ironteeth witch means Crochan as excavation © m they sà £ o both tà £ stubborn ... that turns them on. I enjoyed some scenes where Dorian got shifter magic and he próprio turns into a woman. And he thinks to go to masturbate in order to see how everything works ... LOL On the other hand, Chaol ANDA Yreneà with Sartaq and Nesryn reach Anielle the Chaol home waiting to make your successful landing and cross to Terrasen. Yrene A © a joy; one wonderful character that I loved from the moment I read about it in Tower of Dawn. It has humor, empathy, patience and lots of love for her Chaol New Sartaq and Nesryn. I loved Thea ruks, giant águias (I want a Tamba © m!) And the fight scenes were worthy film. Now Aedion and Lyssandra? Here I had some objeções. While the entire book other characters have made progress and made way for Terrasen, Aedion, Lyssandra, Evangeline Fleetfoot SAME, were arrested in the north, where winter was brutal and fighting even more. US in £ liked the behavior AEDion Lyssandra direction. He was stunning and broke the promise he had done to her in Empire of Of Of Why did he have to sees her struggling in that scene in order to realize that he still loved her? As for the Rowan group; that part of the story Tamba © m was a rollercoaster of emotions. Rowan, who was trying to feel his mate Lorcan and Elide. Of all the couples I liked this book, wing © m Chaol ANDA yrene, Lorcan and Elide were my favorite. Why not give the £-Only they try to forgive each other, but as well © m come into terms with the fact that Elide will grow old and die one day, while Lorcan still estarÃ; alive. When they finally save Aelin and Fenrys, which both suffer from PTSD MAJOR they và £ Tamba © m trying to find the way to Terrasen. Honestly, the torture à © à © described brutal and the worst part à © Maeve and Cairn made Aelin forget everything. She wakes up the £ o remember exactly what had happened and she felt like she had been through a nightmare. Beyond \odot m addition, the battle Anniele was one of the best in the book, especially pages with Elide horse across the battlefield. It was incredible and my poor cora§Å the sampler £ £ the ag¼entava! By the time the second part of the book deals, suffered atravà \odot s farewells, steamy scenes, witty humor, and so I fight'm crying by this point. Dorian começa his lonely journey title to invade the castle. I had many flashbacks LOTR by this point, which made me scared for him. It really was like Sam will save Frodo all due própria. If Sam had magic and a small alpha-streak à © These capÃtulos were terrifying and the part where it brings everything down? Ã PEAK !!! And although the book moved between Manon, AelinA ANDA Lyssandra, I came to appreciate the Crochan witches. Wed £ Abraxos was the incredible as always. two points to the end I have to talk. When the lockout time has come to walk Yrene'sA battle. For the lock, I'll just say that these gods deserve what theyâ ¢ drop because they were bites. Tamba © m on what followed next file allow me to rave slightly: page 800 deep * The final scenes of the book were glorious though with a hint of desperation. US in the £ liked what happened, who died and how próximo came to Aedion and Lyssandra die Tamba © m. The final battle was à © witha peak Yreneà mainly in the center, as she fought a lot. Honestly, by this point in the book, I was hoping more for everyone else to survive, knowing that Rowan and Aelin would. The end was bittersweet engraçado and the coraçà from the £. Because after all, this was a sà © rie that made me love YA. From 2014, when I started reading the books, I was swept of the characters and the world. Beyond © m of it, knowing that there will be a companion, World of Glass Throne, leaving in 2019 will rekindle my love for sà © rie. In a way, most of these characters has its incrÃveis HEA with the fight, blood tearsà walks that came with it. I will always love this sà © rie. About the Author: Sarah J. I could continue and continue, and I kind of going to this review because it fucks this is my blog, but before going to this series, I think I'm going to share my original goodreads opinion when I finished this liv Ro all the way back in the autumn of 2018 when it was launched for the first time. Here is a small review of Portrait Books: ~~~ No since Harry Potter has a sést laugh really grabbed me and has invested me emotionally as this sést rie has. I remember that I discovered this day back in 2012 at Pinterest, everywhere, and seeing so much fan art about it and see amazing digital art work with \tilde{A} \hat{a} \in ℓ \neg \neg φ \hat{a} \in A Legend, not knowing what it was, but after a while, my curiosity took the best of me and then I decided to investigate and give the book attempt. One of the best decisions I've done. I quickly loved it. This is so much. I loved everything about it. I especially loved the characters. I loved the Kaleean dynamic with Dorian and Chaach at the beginning, the original trio, and even the new characters all books, Rowan., Aedion, Manon, Lysandra, Nesryn, Yrene and so many more. I felt so connected and familiar with each of them, and I felt like I was friends with them. They were my definition of goals from the squad O, at least inside a book. Sarah J. Maas created a world so vivid, creative and wonderful with this story of a girl trying to regain Her kingdom, and it's so amazing to know that this series grow over the many years. While I know some people did not like this aspect, but it was incredible to see her prose grow and mature over time, but yes, it means that the subject also matured. The glass throne seemed more than a typical teenage fantasy type and, later, especially in the impetus of storms, more mature themes had appeared and noticed how some people did not like it; Some say it is not the best material as girls should read. While I saw her points of view, I thought it was great to see her writing change over time, and the characters grew up and changed over time, and the characters grew up and changed over time, and the characters grew up and changed over time, and the characters grew up and changed over time, because the story has changed a lot over time, and the characters grew up and changed over time. typical teen fantasy, and in a area between Ya and Adult Fantasy. I also think that pushing limits and having subject that parents may not want their children to read means that it should be a good story; They are more shocking, interesting and thought out â € - provocaters. Like any great books of books, I had to come to an end at some point. This reminds me when I read the big battle at the end of the first book, knowing that there is a great villain that needs to be overcome and thinking to myself, how in the world do they come to this point? What will happen from now on to then? The book really did not get surprisingly almost 200 pages. He was understandable; He had to take us in many characters and their bows, because for some of them, they were two years since the last book in which the last book in which they were two years since the last book in which they were two years since the last book in which they were word. To make a long story atravà © s around the middle, I laughed, I cried, and I prepared for the eventual end. The endingà ¢ | there were many things that Sarah did that back paid tribute to the first book, back to its roots s of history were tà £ touching the going, so reassuring, IA m £ tà happy she did. It made me emotional about ità ¢ estÃ; all over now, but he made them reflect on Ignatius. The end of the perfect wasnât ¢ course, some histories that I'd ended differently or have more attention £ o, but who knows, ACOTAR-Only should be a trilogy, £ Enta the fingers crossed. I canâ ¢ t say one only thing bad about this sà © rie in general. Esperança any writer who wants to have their histories touch Algua significantly © m, and Sarah, this did both. ItÅ ¢ Å © one of my inspiraŧµes of wanting to write my prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arenâ ¢ t anywhere close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even if they arena close to resembling her prųprios books, even all they arena close to resembling her prųprios books, even all they arena close to resembling her prųprios books, even all they arena close to resembling her pr for reading. The Throne of Sà © glass Series serÃ; forever be a part tà £ great to me, as a writer and a reader. You could do anything, if you-Only daredà ¢ Thank you Sarah J. Maas, sincerely from the bottom of my coraçà £ o. Reading his books, conhecê it and get a picture with you when you came to Minnesota to its tourism Dawn Tower, I aspire to touch life someoneâ ϕ s a day like you ϕ ve touched my! For the stars listening, and dreams that sà ϕ o answeredà ϕ A ϕ look a Apara A ϕ A keep my emotions under control as my sà © rie favorite book is over. D would at least like to think IÃ ¢ d learned to use the £ nA many vÃrgulas and my gramÃ; tica was generally improved tremendously Since then £ o, although Shea ¢ s only released House of Earth and blood (Crescent City # 1), Since then £ o, which Tamba © m à © crazy to think, but Ià ¢ ve Tamba © m come to notice more things in your writing that arena t tà £ big, whether it's other fans £ s or enemies. The cool thing about all this à © I can say that I still love their histories, although I notice the little things that I wish would change, but instead of beating an author, just go and find Algua © m that does £ o include such material, whatever it may be. Celaena / Aelin à © an absolute favorite of mine along the sà © ries; its growth à © tà £ made good, and the emotions by trÃ;s of his words, his motives, his Stocks and Ratios sà tà £ o £ the nÃtidas vulnerÃ;vel and that you really feel them next to her as it will killer for the lost heir hA; long the queen try to regain his kingdom. In this book, she once again passes through the wringer and learn valuable liAsA £ from having to rely on those corner of it and how thata ¢ A © nA £ really the weakness, but a forAsa itself. Thata ¢ s just one of liAsAµes Shea s taught me along this sà © rie, another à © how to let these same people. Allow yourself to be vulnerÃ; vel with them in order NA-Only the £ survive, but to live in truth. Ità ¢ à © better to have gone too far from the £ that does have traveled at all. à © Rowan, of course, another favorite; As in the £ could be if youà ¢ already arrived minutes © here? estóico h ¢ s hard around the edges, protective, honorable and a fierce ally and friend and lover. This shows how much hea ¢ s changed since Aelin came into his life; nA £ o-Only because theyâ re ¢ companions but as well © m because of how Shea ¢ s made a Fae Príncipe warrior as he próprio whose been around for many years to see somehow the world different way. She was literally like a sun that made him see the light on his long and aged journey. I was sold immediately immediately immediately immediately immediately her and Relationship Aelin & S? Noa | Ã & | The shit of allies for could allovers have one by the other by this point. To be honest, I did not see a lot of Rowan's dynamic change in this book, but he was more rock and calm presence so that Aelin to fulfill his fate! Dorian is my absolute favorite, hands! I am already loved him from the first chapter of the first book, and that love only grew more and more like the sest rie continued. It was disappointing to see you type to get the brush off and move slightly to the bottom in some parts, especially when Rowan and Aedion entered the scene in aelinan life, and I think it was made dirty a few times because of it, but maybe That's too, in part, that's why I love you as much as a character! He ¢ s has grown so much since the Tropey, beautiful, charming, total ladies man prince and became a fair and healthy king full of bravery and more courage than anyone else I can think of! Ladies and lords and not binaries, if a man like him, who really likes to read by amusement enters his life, you grab this person! Chaol is a character so controversial for the sest rie, it seems that you want to love it or hate you with almost nothing in the middle. Believe it or not, I was always a big fan of his, even when he had a few moments in Queen of Shadows who really did you really did you really want to beat that boy on his face, I do not put the guilt in sjm so that, putting -The in the ex bitter position that he ¢ D was relegated to. I could understand some of the things he did and said to that moment, it was all in his character and how he was raised with his education, but even I can agree that he was a ass-hat for aelin in some Momentsã ¢ | However, I felt as if he truly also redeemed himself, later, the moment this book comes around. I was so happy / very happy / relieved to see you start your own bow little red and (I hope) - in a better light once the story was made! Aedion was another character I wanted to have the time for address. I immediately loved him when he paraded in my life in Heir of Fire, although it was not clear whether he was going to be hero or villain right out of the bastion. HEAN is practically a male version of Aelin, which is straight to the fire, but I will say that I would like to exploit your bisexual confession a little more! This is one thing that I à ¢ m not a fan of writing sjmà ¢ s, but until now its only LGBT + representation is when a character says only his character says only his character, and Thatà ¢ Ita | She got better about it in her book Crescent City with many more secondary characters Re whoa strange, but I say she can always get better; A esnA ounce iama iam will trash her for it! I hate as disappointed I was in Aedion in this book with the way he is in the sense of Lysandra, but I go more for that later! Manon Blackbeak is a badass, pure and simple. She is a cold stone bitch, and I love her for it, but I have to say that as her character of her more than I liked her entangles. I just met me brushing more frequently whenever the chapters centered around it; I just found her chapters to be more annoying. This definitely changed in Empire of Storms, and suddenly I think she is that the most interesting character outside the group in this book! I also never thought I was going to be as obsessed with her and Dorian becoming one thing, but a certain scene below the convenils with some chains later, and now | If there are more characters you want to give me a little comment about, be feel free to say this and I'll go happy to add them! Ità ¢ s About: â € - This book remains soon after the events of both Empire of Storms and Tower of Dawn, both of which were happening each other in terms of chronological events happening. Aelin was taken by Queen Maeve and Cairn, brought back to Wendlyn to be arrested and held captivity in that horrible, horrible iron coffin, Letters do not forget fenrys whose also exists in their wolf form. Aedion and Lysandra is £ o trying to keep the artifAcio of Aelin be safe and sound as the allies of Queen Terrasen met, but the voltage £ o A © insanely thick between Aedion as she puts face AelinA ¢ s in front of everyone, but to themselves and Aedion is a general despised by his bad betray of keeping him out of the circuit and allowing Aelin to be captured, first, the time all badly be able to keep the exchert Valg King EraWan㠢 S in Baya | Rowan is following soon behind Maeve, in order to save his companion and wife (yes, remember his wife now also), and ità ¢ sa race against time before sheé ¢ s foreverà ¢ gone | Dorian and Manon is traveling with 13 to gather even more allies among the witchesã ¢ | Chaol, Nesryn back trip from the southern continent with all its new allies and the recent news of theyÅ ¢ has already discovered about the queena fae | With Aelin captured, friends and allies are dispersed to different destinations. Some tutulos will grow even more, while others will be cut forever. As destinations weave together in the past, everyone should fight if Erilea is having any salvation of salvation. Years In The Invoice, Sarah J. Maaasa Sa New York Timesa Best-Seller Throne of Sà © Rie Flame to an explosive conclusion as Aelin fights to save Herselfà ¢ and the promise of a better world. What I liked: the final battle! Just the fact that it is the final book and what a big final battle is finally here is enough reason to be excited! Remember when you read the first book for the first time and Aelin was still Celaena and she was facing Cain? You wondered what you were, possibly, receiving in yourself, and that could happen in this series as you kept happening with every book? Italy It's just crazy thinking Wea finally here and in the end is on top of us! Meeting of the original trio SJMA & s! Saudade was heavy in this book, and I was so happy to see homage sim payment to the way this season dang all started, and that was with Aelin (like Celaena), Chaan Westfall, and Dorian Havilliard! To have them all reunite and as she brought her back dynamic to the limelight led to the tears a few times! They feel like my real friends, and theyan ¢ I went through so much together and on their own and to see them come back together and I still have a lot of love and adorção for each | .ughother ¢, so many emo !! Aelin learns to apase in his squad! One thing that until I was finding boring with Aelin was how she had to keep all her plans inside her own mind and couldna ¢ t share the totality of them with no one! Of course, the plans generally gathered successfully, until this point, but cj mon girl \$\xi\$ l These people are your team! Donâ \$\xi\$ mon girl \$\xi\$ l These people are your team! Donâ \$\xi\$ mon girl \$\xi\$ l These people are your team! Donâ \$\xi\$ mon girl \$\xi\$ l These people are your team! Donâ \$\xi\$ mon girl \$\xi\$ then your cousin !!!! By this point, there was no way she was going to be able to get out of her situation with Maeve and Cairn for her own, and it was great to see her finally learn to trust her loved ones and allies To become victorious! Itâ € To become victorious! Itâ € to seek help from those who are willing to give you! Dorian makes a main game! Again, Dorian makes a main game! Again makes a m me on the edge of the seat me! All couples! I think I was complaining about this aspect of the SJMAN BEFOREÃ ¢ writing that all your characters end up together when they do not necessarily have to ¢ but I can also say that I care too much about each pair to now Think this way, at least for this Seriesã, | Aelin and Rowan, Aedion and Lysandra, Dorian and Manon, Chaol and yrene, Lorcan and Elide, and bind even © Nesryn and Sartaq; I only care about all of them much by this point! Ità ¢ Difficult to say some of these couples did not need to happen when I love They are very! What I didnà ¢ t like: behavior aedionà ¢ s for lysandraan ¢ | What a shower-nozzle it was in this book! Yes, he he Betrayed by the two women who are more important to him in his life, and certainly left him out of the loop with his plan, but the sane?! I was heartbreaked by how much I was enjoying it less and less with every chapter that focused on it and Lysandra and the allies that Aelin brought to them. I was happy to see him redeem a little to the end, but I can say that it was not enough for some readers, and not all were forgiven in terms of his behavior. I still can not believe he left Lysandra in the snow when she was completely naked! I wanted to beat the direction in this hard head of his! More characters must have died ... now listen to me because I can literally feel some of you deciding to cancel me by saying that, but I seriously think the SJM played very secure and saved many characters in the end! The story would have been much more impactant if the main characters died in this is the final battle, and a bad thing, it is an unpleasant and brutal battle, it would only be more realistic if more of the main players were to have been killed. It would be sad and depressing, yes, but it would certainly be a plot as effective and memorable with the emotional impact more deaths evoke! What if they literally die in the arms of each other? What if they literally die in the arms of each other. the whole real family of the southern continent died? The streets? What if Dorian died in his great sacrifice? I will admit, the deaths of characters we received were many tract and I will not ruin who it was for anyone who still does not know, but I get my statement! The end should have been more extensive bank for this I mean it was wrapped a little very clean and trim. I wish there was a much bigger jump in time, and with more information about what happened to Other characters in addition to just Aelin and Rowan. What kind of King Dorian really ended up being? I wanted more of these types of SJM answers, but the fingers crossed that she left more open so that if she wanted to, she could go back to this world and continue her stories somehow! CONCLUSION: af © As I Said In My Original Opinion of Goodreads: Before this series, only Harry Potter has been a series of books that made me give so much emotional and time investment that is © Rie has over my 27 years on land. The throne of the glass of glass keeps a place so special in my heart, and I think this is partially because I was with the same as the books were being released, and grew up to the Side of the books and the story in a very shocking time of my life 2013-2018. He was always next to me on my journey through these years, and with that proves my attachment to this day that I could never have with another seriously again, if there are no time. In terms of Gen ZÃ ¢ â € TM and Tiktok Generation: These books really hit different! I really can not recommend this Books of Books enough for anyone looking for a fantasy seste is to try to read. I say to seriously has a bit of all that is necessary to create a history is pica: adventure, memorable characters, danger, romance, character growth, the battle of good vs. Evil, action, mix, amazing ties, story, betrayal, many interlaced stories, and more! My only concern is that, for the most advanced readers, the first book is truly weaker and shows only what it seems 1% than the real estate is about! It is full of many recognizable tropes that we saw so many times before, but remember that it was published in 2012, when these ideas were not considered as clichà © how they are now. I say give a chance, see what happens, and you You know, you're In love with this as I am! Thanks for reading! Ã ¢ â € "Nick Bustell Bustell
